2019 MOST ENDANGERED LIST

Sadly, the most recent MEL contains mostly properties listed previously and still under threat. Three new listing, however, bubbled up for 2019.

The Kibbe Candy Company at 616 Berkshire Avenue was built in 1915 for the Miner Chocolate Company. The imposing five-story building was subsequently purchased by the Kibbe Candy Company, which operated here until the mid-1930s. The largest industrial building in Pine Point is now vacant, although its lot is still used for school bus storage. Vandalism and water penetration are always threats for vacant buildings.

Saint Luke's Methodist Episcopal Church at 146 Bay Street was built in 1888. Over the years, the clapboard and shingle building served several congregations. It is now vacant. Although within the McKnight Local Historic District, the building is threatened with "demolition by neglect."

The Carew Street Baptist Church at 90 Carew Street was built in 1885. The Stick style building has been vacant since 2000. Once planned to be adaptively reused for offices, it was recently sold to a developer whose primary interest is redevelopment of the site for a new medical office complex. We regret to report that the structure was razed in early April.

Below is the remainder of the list. [Click here](#) for more information.

2019 ANNUAL MEETING

The membership of the Springfield Preservation Trust gathered at the newly restored 175 Mill Street, Springfield, on Sunday, March 3rd. Our host was Walter Kroll, who along with his partner Demetrios Panteleakis, have brought back a beautiful home from years of neglect.

We are still gathering presenters for the tour, although one eminent Springfielder in the world of literature has been selected for presentation.

Josiah Gilbert Holland, whose monument in Springfield Cemetery was designed by Augustus Saint-Gaudens, was successful as a journalist, a novelist, a biographer and a poet. He sold more books in his lifetime than did his contemporary Herman Melville.

The people who are buried in Springfield Cemetery have many stories to tell. From politicians, to soldiers, to builders, scientists and scholars, on down to ordinary folk who witnessed extraordinary events. If you are interested in portraying someone in our tour, please contact Mike Stevens (413) 686-3140 or mlstevens@comcast.net. Mike is coordinating the presenters for the tour this year.

About the Springfield Preservation Trust

The mission of the Springfield Preservation Trust (SPT) is to preserve and protect properties in Springfield, Massachusetts which have architectural, historic, educational, or general cultural significance for public edification and enjoyment.

SPT believes historic preservation is an important part of making Springfield a great place to live, work, and visit. Historic Preservation is crucial to tourism and economic development and creating a unique sense of place. It's a means of creating jobs, attracting investment, generating tax revenue, and supporting small business.

For 45 years, SPT has been an independent voice supporting historic preservation. Over the years we have held countless events to showcase how our old buildings can be part of our modern lives and show off the historic places that make Springfield unique. We've helped pass legislation on the state and local levels that averts the needless loss of historic places. Our online resources help homeowners with restoration and educate the public on the beauty, quality and value of older homes. These activities have helped save and restore Springfield's threatened historic treasures so that they are here for future generations to enjoy.
